

Aryan Dani

AI Engineer | Full Stack Developer

About Me

I am a Student, an aspiring AI engineer currently honing my skills in Artificial Intelligence and full-stack web development. With a passion for technology and problem-solving, I strive to create innovative solutions that make an impact. As a hardworking and curious individual, I take pride in my ability to collaborate with teams and deliver results effectively.

Key Skills

- Languages: Python, JavaScript, TypeScript
- Frontend: Angular, React, Next.js, Tailwind CSS
- Backend: FastAPI, Flask, Node.js, REST APIs
- AI & LLMs: RAG, LangGraph, Agentic Workflows, Prompt Engineering
- Computer Vision: YOLOv11, OpenCV, CNNs
- ML Frameworks: PyTorch, TensorFlow, Scikit Learn
- Tools & Cloud: Git, GitHub, Docker, Supabase, Firebase

Employment Experience

● Junior Developer (AI Engineer)

Artem Health Tech

January 2025 – May 2025

- Collaborating with a dynamic team to develop scalable web applications.
- Continuously enhancing my skills in web development, including Typescript.
- Learning Angular.js for web development

Education

● MIT World Peace University

Integrated B.Tech in Computer Science (Artificial Intelligence and Data Science)

2022 - 2028 (Ongoing)

I am currently pursuing my degree in AI and Data Science, where I have developed a strong foundation in programming, algorithms, and artificial intelligence with the best grades.

● The Lexicon International School

High School

2015-2022

During my time at Lexicon International School, I built a strong academic foundation while actively participating in extracurricular activities like debating. My experiences here fostered my curiosity and passion for technology, laying the groundwork for my journey into AI and software development.
